

BLACK COFFEE

Every morning, I wake up at 7 o'clock. The first thing I do is make a cup of black coffee. I love the smell of the coffee; it makes me feel awake and happy. I usually drink my coffee hot, without sugar or milk. The color of the coffee is dark and beautiful. When I take a sip, it tastes a little bitter, but it is delicious. A cup of black coffee gives me energy for my new day. I really love my morning coffee.
